That Toul Weather.

There are places in the world where
the weather has been better the last
few weeks than in the American sec-
tor northwest of Toul, but the pre-
vailing dampness never even tarnishes
the American sense of humor.

The colonel of a regiment, making
a night tour of the trenches, was chal-
lenged by a sentry who had been stand-
ing at his post for two hours in a
driving rain.

"Who's there?" said the sentry.
"Friend!" replied his colonel.
"Welcome to our mist," said the sen-
try. And the most serious thing the
colonel did was to laugh.—From Stars
and Stripes, France.

Who Ever Saw?

The log that people sleep like.
The chickens that the farmer's kids
have to go to bed with.
The deer that a small boy can run
like.

The horse that everybody thinks he
works like.
The dog that the pirates used to die
like.

The house and home that one is
eaten out of.

Some One Else Got Her.

Cholly—I thought I'd try an innova-
tion.
Molly—And did you?
"Surely. I decided to propose mar-
riage to a certain party by telephone."
"How did it work out?"
"I was told the line was busy."

It Was Correct.

This teacher was having some trou-
ble with a certain pupil in grammar.
"Now, little girl, would it be proper
to say, 'You can't learn me nothing?'"
"Yes'm, it would," replied the girl.
"Oh! Perhaps you'll tell me why?"
"Cause you can't!"

DEDUCTION.

"There are 14,000 oysters of full size
in a ton."
"Then a boarding house stew must
be one-fourteen-thousandth part of a
ton."

Biblical Lore.

Samson was a tall, tall man,
And so was old Goliath.
But Ananias, so they say,
Was the tallest liar.

Its Effect.

"Mynne said if she had a soldier
lover she would make him carry her
picture in his pocket and it might stop
a bullet aimed at his heart."
"It would be a life-saver all right.
Her picture is enough to give a bullet
shell shock."

Picnic Days Are Here!

This great American custom has never lost its interest and, we hope, never
will. There is no form of amusement that is happier, healthier, or more friend-
ly and sociable than the good old-fashioned picnic.

When you think of a picnic, your thoughts just naturally turn to tin cups,
tin spoons, camping knives and forks; lunch baskets, pails, ice-cream freezers,
fishing tackle, guns and ammunition, base balls and bats, swing ropes, hammocks,
and a number of other things that are to be found in any first-class hardware
store. So you see how closely our business is associated with that good old
custom, the famous American Picnic.

WOOD'S SEEDS

Crimson Clover

The Wonderful Soil Improver

Sow it in your corn and cotton
at the last working, and next
year you can plant these two
crops on the same land and make
bigger crops. It is considered
worth \$20 to \$30 per acre in the
increased productivity and im-
proved mechanical condition of
the soil.

CRIMSON CLOVER also makes
an excellent winter and spring
grazing crop, the best of early
green feed and a good hay crop.
